This report and all information herein shall not be changed in any way or reproduced, except in its entirety, without the expressed consent of The Good Lab. This information is provided as a service and makes no claims of efficacy or safety of this product. Results are applicable **only** for the sample tested and for the specific test conducted. For informational use only. The above test is reported in percentage by weight, milligrams per gram, milligrams per milliliter, or milligrams per final consumable weight. Detectable amounts below .07% are shown as TR (trace). Our standard detection limit is +/- .02%. Amounts below .02% are considered unreliable and are not reported. Due to many factors outside of The Good Lab's control, results may vary; therefore, we adhere to the cannabis analytical laboratory standard of error of +/- 5%. Cannabinoid content variations may be due to natural variations in the plant and/or inaccurate sampling practices. This report is for informational purposes only and should not be used to diagnose, treat or prevent any medical symptoms or conditions. The statements and results herein have not been approved or endorsed by the FDA. Results are only for the sample supplied by the customer to The Good Lab.
